Advanced Diploma of Information Technology - (ICT60220-03V02)

Location: Meadowbank Campus

UNITS (15)	UNIT CODE	START DATE	END DATE	LEARNING MODE	STATUS
Implement best practices for identity management	ICTCYS604	2024-09-23	2024-12-06	Combination	**Competent**
Evaluate an organisation's compliance with cyber security standards and law	ICTCYS606	2024-09-23	2024-12-06	Combination	**Competent**
Acquire digital forensic data	ICTCYS607	2024-07-22	2024-09-27	Combination	**Competent**
Interact with clients on a business level	ICTICT608	2024-09-23	2024-12-06	Combination	**Competent**
Manage IP, ethics and privacy in ICT environments	ICTICT618	2024-07-22	2024-09-21	Combination	**Competent**
Manage team effectiveness	BSBTWK502	2024-07-22	2024-12-06	Combination	**Competent**
Undertake penetration testing for organisations	ICTCYS603	2024-07-22	2024-12-06	Combination	**Competent**
Design and implement a security perimeter for ICT networks	ICTNWK544	2024-07-22	2024-12-06	Combination	**Competent**
Design and implement a security system	ICTNWK618	2024-07-22	2024-12-06	Combination	**Competent**

UNITS (15)	UNIT CODE	START DATE	END DATE	LEARNING MODE	STATUS
Use network tools	ICTSAS530	2024-07-22	2024-12-06	Combination	**Competent**
Apply critical thinking for complex problem solving	BSBCRT611	2024-07-22	2024-09-21	Combination	**Competent**
Implement secure encryption technologies	ICTNWK537	2024-07-22	2024-12-06	Combination	**Competent**
Plan and monitor business analysis activities in an ICT environment	ICTSAD609	2024-07-22	2024-09-21	Combination	**Competent**
Design and implement virtualised cyber security infrastructure for organisations	ICTCYS612	2024-07-22	2024-12-06	Combination	**Competent**
Perform cyber security risk assessments	ICTCYS608	2024-07-22	2024-12-06	Combination	**Competent**
